Cross-sectional Height:

0.060 inches

Minor Height:

0.010 inches

End Application:

Wing, torque box, outbd

Special Features:

2 beveled corners only, diagonal of each other

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/4, t81 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
