Overall Length:

2.000 inches

Overall Width:

0.910 inches

End Application:

Wing torque box, outbd

Lamination Thickness:

0.003 inches

Construction:

Laminated

Special Features:

One hole

Material:

Aluminum alloy 5052

Material Specification:

Qq-a-250/8, h39 federal specification single material response

Style Designator:

Isosceles triangle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
