Inside Diameter:

Between 0.680 inches and 0.700 inches

Outside Diameter:

Between 0.860 inches and 0.880 inches

Overall Thickness:

0.020 inches

Material:

Steel comp 321 or steel comp 302 or steel comp 301 or steel comp 316 or steel comp 303

Material Specification:

Ams 5510 assn standard all material responses or mil-s-5059 assn standard all material responses or astm a582 assn standard all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
