Inside Diameter:

Between 0.625 inches and 0.630 inches

Outside Diameter:

Between 0.746 inches and 0.752 inches

Overall Thickness:

Between 0.028 inches and 0.032 inches

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t351 federal specification single material response or qq-a-250/4, t81 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-a-8625 spec.
