Nonmetallic Hardness Rating:

80.0 durometer

Overall Length:

Between 0.386 inches and 0.406 inches

Flange Diameter:

Between 0.880 inches and 0.890 inches

Body Diameter:

Between 0.630 inches and 0.640 inches

Body Length:

Between 0.115 inches and 0.125 inches

Center Hole Diameter:

Between 0.365 inches and 0.375 inches

Flange Height:

Between 0.271 inches and 0.281 inches

Design Type:

Single centrally located hole

Special Features:

Resilient member material: rubber, phosponitrilic fluoroelastomer a17d1a3 per ge specification a17d1

Style Designator:

Round flanged

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535j0
