Hole Diameter:

0.250 inches

Overall Length:

Between 0.970 inches and 1.030 inches

Bolt Hole Quantity:

1

Special Features:

Irregular shape; bolt hole located 0.350 in. From center of bolt hole to left edge along width and 0.500 in. From center of bolt hole to edge along length; spacer rounded w/ 0.620 radius from left edge to 0.350 in. Along width and from right top edge to 0.350 in. Along length; 0.650 in. Of thickness is 0.190 in. And 0.350 in. Of thickness is rounded to 0.040 in. On left side; left spacer plate

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/4, t81 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
