**Cross-sectional Height:**

0.220 inches

**Minor Height:**

0.100 inches

**Special Features:**

Qboth cross-sectional ends have chamfer of 0.240 in. Long; on left side chamfer is 0.100 in. Wide reducing major thickness to 0.120 in. And on right side chamfer is 0.060 in. Wide reducing minor thickness to 0.040 in.

**Material:**

Aluminum alloy 2024

**Material Specification:**

Qq-a-250/4, t851 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A07000
