Cross-sectional Height:
0.050 inches
Minor Height:
0.021 inches
Special Features:
92 bolt holes w/0.328 in. Dia., distance between the bolt holes is 1.125 in.; distance from left edge to bolt hole center is 0.400 in. And
distance from right edge to bolt hole center is 0.640 in. Along length; bolt holes centrally located along width
Material:
Aluminum alloy 6061
Material Specification:
Qq-a-250/4, t6 federal specification single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A07000
