Cross-sectional Height:

0.050 inches

Minor Height:

0.021 inches

Special Features:

92 bolt holes w/0.328 in. Dia., distance between the bolt holes is 1.125 in.; distance from left edge to bolt hole center is 0.400 in. And distance from right edge to bolt hole center is 0.640 in. Along length; bolt holes centrally located along width

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/4, t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
