Inside Diameter:

Between 0.789 inches and 0.791 inches

Outside Diameter:

Between 0.900 inches and 0.910 inches

Overall Thickness:

Between 0.0558 inches and 0.0562 inches

Special Features:

Hole is chamfered on both sides 0.010-0.015 in. By 45.0 deg

Material:

Steel comp 630

Material Specification:

Ams 5643 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
