Overall Length:

8.000 inches

Overall Width:

2.625 inches

Lamination Quantity:

1

Lamination Thickness:

0.003 inches

Construction:

Laminated

Criticality Code Justification:

Zzzy

Special Features:

With two tabs, along length; each 0.98437 in. Wide; 0.5625 in. High; and spaced 6.03125 in. Apart

Material:

Steel

Material Specification:

00-s-698 federal specification single material response

Style Designator:

Non-circular w/o bolt holes

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A07000
