Inside Diameter:

Between 0.193 inches and 0.203 inches

Outside Diameter:

Between 0.245 inches and 0.265 inches

Special Features:

Material thickness is 0.062 inches

Material:

Plastic polytetrafluoroethylene

Material Specification:

Ams 3651 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
