Inside Diameter:

Between 1.745 inches and 1.750 inches

Outside Diameter:

Between 2.040 inches and 2.050 inches

Overall Thickness:

Between 0.0695 inches and 0.0705 inches

Surface Finish:

32.0 microinches bore

Material:

Copper alloy 922 or copper alloy 903

Specification Data:

81349-mil-f-1183/10 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
