Overall Length:

2.200 inches

Overall Width:

0.800 inches

Special Features:

Has one bolt hole centrally located along length and width w/dia of 0.257-0.630 in.; both edges along width have tapered thicknesses 0.620 in. Long and 0.060 in. thickness

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/25, t6 federal specification single material response

Style Designator:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
