Cross-sectional Height:

Between 0.210 inches and 0.270 inches

Minor Height:

Between 0.070 inches and 0.130 inches

Special Features:

Both sides along width are chamfered 45 degrees x 0.050 in.

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/4, t851 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
