Inside Diameter:

Between 3.935 inches and 3.937 inches

Outside Diameter:

Between 4.7495 inches and 4.7502 inches

Overall Thickness:

Between 0.547 inches and 0.562 inches

Special Features:

Four corners chamfered 0.060 in. Deep, 45 degrees

Material:

Steel comp 1015 or steel comp 1020

Material Specification:

Astm a519, grade mt or mtx assn standard all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
