Thread Direction:

Right-hand

Counterbore Diameter:

1.0625 inches and 1.0632 inches wrenching end, first counterbore

Counterbore Depth:

0.148 inches wrenching end, first counterbore

Overall Length:

1.310 inches

Diameter:

1.375 inches

Thickness:

0.174 inches

Wrenching Facility Shape:

Round

Screw Thread Length:

0.174 inches

Counterbore Location:

Wrenching end

Hole Inside Diameter:

0.750 inches

Features Provided:

Counterbore

Material:

Aluminum alloy 2011

Material Specification:

Qq-a-225/3, t3 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A540s0
