Cross-sectional Height:

0.550 inches

Minor Height:

0.370 inches

End Application:

F-15 acft

Special Features:

Three corners of aperture are beveled-45.0 porm 2.0 deg, and other corner is rounded w/0.150 in. Radius; the three bolt holes are located on the three corners where the bevels are locat ed

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11, cond t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
