Hole Diameter:

Between 0.529 inches and 0.539 inches

Overall Width:

7.375 inches

Aperture Diameter:

8.750 inches

Special Features:

Sawed through 2 places, 0.062 ins wide

Material:

Steel comp 1020

Material Specification:

Aisi assn standard single material response

Surface Treatment:

Phosphate manganese

Surface Treatment Specification:

Dod-p-16232, ty m, cl 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

spec.
