Inside Diameter:

Between 1.936 inches and 1.940 inches

Outside Diameter:

Between 2.122 inches and 2.125 inches

Overall Thickness:

Between 0.112 inches and 0.115 inches

Special Features:

Indent on outside surface of body, 0.035 ins deep, radius of 0.077

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t4 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2, class 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-a-8625 spec.
