Inside Diameter:

Between 0.9855 inches and 0.9874 inches

Outside Diameter:

Between 1.170 inches and 1.180 inches

Overall Thickness:

Between 0.059 inches and 0.061 inches

Features Provided:

Casehardened

Hardness Rating:

Between 34.0 rockwell c and 40.0 rockwell c

Special Features:

Surface roughness 63.0 microinches all over

Material:

Steel comp 4340

Material Specification:

Ams 6415 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
