Hole Diameter:

Between 0.218 inches and 0.226 inches

Bolt Hole Quantity:

2

Construction:

One-piece

Special Features:

Shim is a segment of a circle w/inside radius of 29.840 in., and outside radius of 210.220 in., and bolt circle radius of 0.999 in.; bolt holes are equally spaced from each edge

Material:

Steel comp 304

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
