**Hole Diameter:**

Between 0.218 inches and 0.226 inches

**Bolt Hole Quantity:**

2

**Construction:**

One-piece

**Special Features:**

Shim is a segment of a circle w/inside radius of 29.840 in., outside radius of 210.220 in., and bolt circle radius of 9.999 in.; bolt holes are equally spaced from each edge

**Material:**

Steel comp 304

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A07000
