Hole Diameter:

Between 0.230 inches and 0.240 inches

Bolt Hole Quantity:

3

Construction:

One-piece

Special Features:

Shim is a segment of a circle w/inside radius of 6.640 in., and bolt circle radius of 6.961 in., and outside radius of 7.190 in.; bolt holes are eqally spaced from each edge

Material:

Steel comp 347

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
