Hole Diameter:

Between 0.230 inches and 0.240 inches

Bolt Hole Quantity:

3

Construction:

One-piece

Special Features:

Shim is a segment of a circle with an inside radius of 7.255 in., bolt circle radius of 7.658 in., and outside radius of 7.880 in.; bolt holes are equally spaced and 0.230 in. From each edge

Material:

Steel comp 347

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
