Inside Diameter:

Between 1.640 inches and 1.650 inches

Outside Diameter:

Between 1.970 inches and 1.990 inches

Overall Thickness:

0.140 inches

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/12, t6 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, class 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-a-8625 spec.
