Overall Length:

2.7 major mils and 3.3 major centimeters

Body Outside Diameter:

Between 21.7 millimeters and 22.3 millimeters

Body Inside Diameter:

8.1 major mils and 8.7 major centimeters

End Application:

Mrap - common nsn - used on 3 mrap variants and 1 other weapon system

Hardness Rating:

100.0 vickers or firth diamond pyramid

Product Name:

Washer, heavy

Material:

Steel

Surface Treatment Specification:

lawdin267, part9 national specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A045a0
