Overall Width:

Between 0.180 inches and 0.220 inches

Overall Length:

Between 0.360 inches and 0.400 inches

Overall Thickness:

Between 0.021 inches and 0.041 inches

End Application:

Pacer dawn

Special Features:

Spacer has three slots 0.062 in. W and 0.121 in. L centrally located at each end along width and one on right side along length

Material:

Plastic epoxy

Material Specification:

Mil-p-18177, type gee, grade g10 military specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-p-18177 spec.
