Inside Diameter:

Between 0.815 inches and 0.819 inches

Outside Diameter:

Between 1.089 inches and 1.092 inches

Overall Thickness:

Between 0.233 inches and 0.237 inches

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625b, ty ii, cl 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-a-8625b spec.
