Overall Width:

0.620 inches

Overall Length:

1.300 inches

Overall Thickness:

0.063 inches

Bolt Hole Quantity:

2

Special Features:

One bolt hole has diameter of 0.196 in.; second bolt hole has diameter of 0.125 in.; center to center distance between bolt holes along length is 0.790 in.; distance from bolt hole centerline to nearest edge along width is 0.310 in.; distance from larger bolt hole centerline to nearest edge along length is 0.310 in.; distance from smaller bolt hole centerline to nearest edge along length is 0.200 in.; four corners are unequally beveled; outside corner bevel length along width is 0.120 in. For two corners located by larger bolt hole; outside corner bevel length along length is 0.120 in. For two corners located by larger bolt hole; outside corner bevel length along width is 0.250 in. For two corners located by smaller bolt hole; outside bevel length along length is 0.250 in. For two corners located by smaller bolt hole.

Material:

Steel comp 304

Material Specification:

Qq-s-766 federal specification single material response

Surface Treatment:

Passivate

Surface Treatment Specification:

Qq-p-35, type 4 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
