Inside Diameter:

Between 0.453 inches and 0.460 inches

Outside Diameter:

Between 0.545 inches and 0.555 inches

Overall Thickness:

Between 0.0145 inches and 0.0155 inches

End Application:

Pacer dawn

Surface Finish:

125.0 microinches

Material:

Steel comp 303

Material Specification:

Astm a582, s30300, cond a assn standard single material response

Surface Treatment:

Passivate

Surface Treatment Specification:

Mil-f-14072, e300 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-f-14072 spec.
