Inside Diameter:

Between 6.885 inches and 6.895 inches

Outside Diameter:

6.170 inches

Overall Length:

11.250 inches

Hardness Rating:

Between 33.0 rockwell c and 38.0 rockwell c

Special Features:

Has two external flanges and three internal flanges; first external flange has od of 7.080 inches; second external flange has od of 6.885 inches and od of 6.895 inches; first internal flange has hole diameter of 5.578 inches, hole diameter of 5.584 inches and flange width of 0.500 inches; second internal flange has hole diameter of 5.870 inches and flange width of 1.320 inches; third internal flange has hole diameter of 6.590 inches and flange width of 9.239 inches; spacer has insert.

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
