Thread Direction:

Right-hand

Countersink Angle In Deg:

45.0

Overall Length:

46.0 millimeters

Diameter:

35.0 millimeters

Wrenching Facility Shape:

Round

Countersink Depth:

1.5 millimeters

Screw Thread Length:

46.0 millimeters

Countersink Location:

Threaded end

Features Provided:

Countersunk

Special Features:

thread size: m39x3-6g

Material:

Steel

Material Specification:

Aisi 1040 assn standard single material response or sae 1045 assn standard single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type 2, class 2 federal specification single treatment response

Thread Series Designator:

Iso m

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A540s0
