**Thread Direction:**

Right-hand

**Countersink Angle In Deg:**

45.0

**Overall Length:**

46.0 millimeters

**Diameter:**

35.0 millimeters

**Wrenching Facility Shape:**

Round

**Countersink Depth:**

1.5 millimeters

**Screw Thread Length:**

46.0 millimeters

**Countersink Location:**

Threaded end

**Features Provided:**

Countersunk

**Special Features:**

thread size: m39x3-6g

**Material:**

Steel

**Material Specification:**

Aisi 1040 assn standard single material response or sae 1045 assn standard single material response

**Surface Treatment:**

Cadmium

**Surface Treatment Specification:**

Qq-p-416, type 2, class 2 federal specification single treatment response

**Thread Series Designator:**

Iso m

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A540s0
