**Inside Diameter:**

Between 1.450 inches and 1.452 inches

**Outside Diameter:**

1.500 inches

**Overall Thickness:**

Between 0.119 inches and 0.124 inches

**Special Features:**

Has internal flange with hole diameter of 1.255 in. And hole diameter of 1.260 in.; also has flange width of 0.084 in. And flange width of 0.086 in.

**Material:**

Copper alloy 172

**Material Specification:**

Qq-c-530, cond h federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A07000
