Inside Diameter: Between 1.450 inches and 1.452 inches Outside Diameter:	
Outside Diameter:	
1.500 inches	
Overall Thickness:	
Between 0.144 inches and 0.149 inches	
Special Features:	
Has internal flange with hole diameter of 1.255 in. And hole diameter of 1.260 in.; also has flange width of 0.109 in. And fla	ange width of
0.111 in.	
Material:	
Copper alloy 172	
Material Specification:	
Qq-c-530, cond h federal specification single material response	
Shelf Life:	
N/a	
Unit Of Measure:	
	
Demilitarization:	
No	
Fiig:	
A07000
