Inside Diameter:

Between 1.450 inches and 1.452 inches

Outside Diameter:

1.500 inches

Overall Thickness:

Between 0.144 inches and 0.149 inches

Special Features:

Has internal flange with hole diameter of 1.255 in. And hole diameter of 1.260 in.; also has flange width of 0.109 in. And flange width of 0.111 in.

Material:

Copper alloy 172

Material Specification:

Qq-c-530, cond h federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
