Overall Length:

11.600 inches

Overall Width:

0.470 inches

Overall Thickness:

0.232 inches

End Application:

Pulley brkt, emergency release, aft cargo door uplock, c130-j acft

Special Features:

1 hole 0.198/0.204 at one end 0.410 in. End to center of hole along length, 0.370 end to center along width

Material:

Plastic phenolic

Material Specification:

Mip-p-15035, ty fbe military specification single material response

Style Designator:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

spec.
