Overall Width:

Between 4.570 inches and 4.690 inches

Overall Length:

Between 4.940 inches and 5.060 inches

Overall Thickness:

0.320 inches

End Application:

Bradley

Product Name:

Side shim, support, bracket

Special Features:

10 rounded corners with 0.130" radius; 3 rounded slots with 0.560" radius along the same side of length

Material:

Aluminum alloy 5086 or aluminum alloy 6061

Material Specification:

Qq-a-250/7 federal specification single material response or qq-a-250/11 federal specification single material response

Surface Treatment Specification:

Mil-c-5541 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-c-5541 spec.
