Overall Thickness:

0.125 inches

Product Name:

Shim, laminated output bearing

Special Features:

Aperture diameter 4.500 in.; side radius from shim center 2.400 in.; hole diameter 0.280 to 0.286 in. 9 places not equally spaced; outside corner radius 0.320 in. 9 places; inverted radius 0.250 in. 12 places

Material:

Aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
