Overall Thickness:

0.005 inches

End Application:

Turbine, aircraft cooling

Product Name:

Shim, diaphragm

Special Features:

Inside dia. Is 3.550; tolerance .002; outside dia. Is 5.374 dia. Tolerance .002; has three holes equally spaced .531 dia., six holes .199 dia., six holes .228 dia.

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
