Overall Width:

31.8 millimeters

Overall Length:

117.5 millimeters

Overall Thickness:

0.313 inches

End Application:

Tactical vehicles

Special Features:

2-0.8 millimeter holes along center line of length; 3-9.5 millimeter recessed holes 8 millimeters from the side of the length; 3 holes are recessed 0.5 millimeters from top

Material:

Aluminum alloy 5052

Material Specification:

Astm b209 h3 plate national specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
