Inside Diameter:

3.875 inches

Outside Diameter:

Between 5.355 inches and 5.435 inches

Overall Thickness:

0.016 inches

End Application:

Nha air cycle machine pn 814207-1, end item f-18

Product Name:

Shim, thrust bearing

Special Features:

Smallest bolt hole quantity is 12, 6 bolts with a bolt hole diameter .234 inches and .242 inches and 6 bolts located on the inside ears of the inside diameter with a bolt hole diameter of .209 inches and of .217 inches, large bolt hole quantity is 3 with a bolt hole diameter of .531 inches, the bolt hole circle diameter for 6 small bolts and 3 large bolts is 4.480 inches

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
