Overall Length:

2.700 inches

Overall Width:

0.390 inches

Overall Thickness:

0.040 inches

End Application:

F119-pw-100 engine for f-22 aircraft

Product Name:

Seal compress

Special Features:

Drawing name spacer-plate

Material:

Titanium alloy

Material Specification:

Ams4911 assn standard all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
