Overall Length:

4.880 inches

Overall Width:

0.430 inches

Overall Thickness:

0.063 inches

End Application:

Ase

Product Name:

Shim, avionics rack

Special Features:

Seven mounting holes, .128 dia.

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250 / 11 federal specification single material response

Surface Treatment Specification:

Mil-c-5541, class 1a military specification single treatment response

Style Designator:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-c-5541 spec.
