Overall Length:

6.120 inches

Overall Width:

1.750 inches

Overall Thickness:

0.125 inches

End Application:

Shelter nonexpandable, lightweight

Product Name:

Shim

Special Features:

Two holes equally spaced .344 in. Dia., 5.375 in. Apart center to center

Material:

Aluminum alloy 5052

Material Specification:

Qq-a-250/8 federal specification single material response

Style Designator:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
