Inside Diameter:

Between 1.190 inches and 1.310 inches

Outside Diameter:

Between 1.940 inches and 2.060 inches

Overall Thickness:

Between 0.320 inches and 0.440 inches

End Application:

Personnel carriers

Material:

Aluminum alloy 5083

Material Specification:

Qq-a-200/4 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
