Overall Thickness:

0.032 inches

Product Name:

Washer, drilled

Special Features:

This is a pear-shaped spacer, plate; it has two holes, side by side with 0.50 inches (in.) between centers; the inside diameter (i.D.) of the smaller hole is 0.080 in

Material:

Steel comp 321 and steel comp 347

Material Specification:

Ams 5510 assn standard all material responses and ams 5512 assn standard all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
