**Overall Length:**

1.000 inches

**Overall Width:**

0.800 inches

**Overall Thickness:**

0.032 inches

**End Application:**

B-52 ecmi mod

**Product Name:**

Plate, structural, aluminum

**Material:**

Aluminum alloy 2024 or aluminum alloy 7075

**Material Specification:**

Qq-a-250/4 federal specification single material response or qq-a-250/5 federal specification single material response or qq-a-250/12 federal specification single material response or qq-a-250/13 federal specification single material response

**Surface Treatment:**

Anodize

**Surface Treatment Specification:**

Mil-a-8625, type 1 federal specification single treatment response or mil-c-5541, class 1a federal specification single treatment response

**Style Designator:**

Rectangular

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A07000

**Mil-std (military Standard):**

Mil-a-8625 spec.
