End Application:

1520-01-035-0266

Special Features:

All edges chamfered to 45 degrees by 1/32. 51 externally equally spaced serrations and 50 internally equally spaced serrations.

Material:

Aluminum alloy

Material Specification:

Astm b150 or ams4634 assn standard 1st material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A045a0
